### THE COUNTRY PAPER.

Were you raised in the country? Many city people were. The touch of nature makes the whole world kin. "There's a little country paper that I love to sit and read, a paper poorly printed and behind the times indeed; with pages small and narrow and ink inclined to spread and here and there a letter gravely standing on its head, or caps a bit erratic, boldly popping into view in unexpected places and knocking things askew. A real old-fashioned paper, from my little native town. Each week I hail its coming and never put it down till I've read its columns, all the local news you know, about the dear old country folks I lived with long ago." "I note whose barn is painted, whose cattle took the prize, and how Trail Potts had a quash of mighty wondrous size. How Farmer Martins daughter takes the school another year. At this I pause and smile a bit and feel a trifle queer, remembering how, in bygone days when life seemed made for mirth I thought this school-ma'am's mother was the sweetest girl on earth." "And now perchance, I read that one whom once I knew is dead; or find again, some boyhood chum the second time has wed. And so it goes and none can know what memories sad and sweet come back to me when 'er I read this homely little sheet.—M. Fowler in Chicago Daily News.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### WORK FOR EVERYBODY.

Never before in the history of this country, has there been such a great demand for laborers as at the present time. This is not only true of one locality but applies to all parts of the country alike. Nor does lack of laborers apply to one trade or profession alone, for in all lines of work the cry is heard.

Labor agencies everywhere are advertising everywhere for laboring men and from all sections of the country comes the complaint that sufficient men cannot be secured to carry on necessary work.

Managers of laboring agencies and others who are acquainted with the conditions of labor say this is a peculiar circumstance, and assert that it indicates a degree of prosperity never before known in this country. It is no uncommon thing for laborers to be scarce during the summer months, but it is quite unusual for the demand to be greater than the supply this time of the year. This is especially true of the northern states, where heretofore the extreme cold has caused many of the large contractors and builders and others engaged in extensive public works to close down until spring opened.

In speaking of what a queer animal man is, an exchange says "What a roar there would be when they went home to their meals if they had to climb upon a high stool in front of a table on which there was no cloth and eat their meal in that fashion. Yet a majority of them when they go to a restaurant to eat will pick out the high stool and seat board with no cloth on it in preference to a comfortable chair and a covered table. A man will borrow a chew of tobacco and set his teeth into the plug right where some other man has gnawed out a chew. Offer him a piece of pie at home from which his wife or one of his children had take a bite and he would hollow his head off. At home he would not drink out of a glass or from a cup from which some of the family had been drinking; call him to the back stall of a livery barn, pull out a bottle and he will stick the neck of the bottle half way down his throat in order to get a swig after a half dozen other fellows have had the neck of the bottle down their throats. Man is a queer duck."

### Out Wits The Surgeon.

A complication of female troubles, with catarrh of the stomach and bowels had reduced Mrs. Thos. S. Austin, of Leavenworth, Ind., to such a deplorable condition; that her doctor advised an operation; but her husband fearing fatal results, postponed this to try Electric Bitters; and to the amazement of all who knew her, this medicine completely cured her. Guaranteed cure for torpid liver, kidney disease, biliousness, jaundice, chills and fever, general debility, nervousness and blood poisoning. Best tonic made. Price 50c at Webb Bros. Store. Co Drug store. Try it.

It would seem that the editor makes more mistakes than anyone. No matter how particular he may be or how much he may regret it, after his paper is out there they are bigger than life, and they have to go—for people to criticize the unhappy author. And so it goes from week to week. This is to remind the reader that the editor is the only person who makes mistakes.—Hume Telephone.

A DENVER woman recently succeeded in raising \$2,000 for a hospital by selling kisses and smiles. She might now be able to get an other good slice of money for some charity by writing a testimonial in favor of somebody's cure for chapped lips.

ANOTHER of the advantages of early Christmas shopping is the absence of finger-marks on the goods that are bought by the people who get first.

### A Texas Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by Webb Bros. Druggists. 50c. and \$1.00. Trial bottle free.

WHEN Count Boni mounted the tribune for the purpose of making a speech in the French chamber of deputies the other day half the members got up and walked out for the purpose of snubbing him. It does not appear, however, that there was an exodus from the ladies' gallery.

A New York judge has rendered the opinion that it is no crime to hug a girl on the doorstep. Without touching upon the legality of the operation there are men who will cling to the opinion that it is exceedingly dangerous if the girl's father happens to be large and husky.
